

JONEL ALBUQUERQUE

OBJECTIVE

I am a BSc Information and Knowledge Systems student, majoring in Software Development with a passion for learning and solving problems. I have strong skills in programming languages such as C#, Java, C++, JavaScript, and SQL, as well as coding frameworks and markup languages such as Angular, React, HTML, and more. I also have a solid foundation in software engineering principles and practices. I am hardworking, dedicated, and always eager to take on new challenges and opportunities that can help me grow and improve as a developer. I have worked on various projects, both individually and in teams, using different technologies and tools to create innovative and user-friendly applications. I strive to be the best in whatever I do and to deliver high-quality results. I look forward to working with you!
